

PRAFULLA SATLE

Artificial Intelligence & Data Science Graduate

Pune | 8698731238 | prafullsatle@gmail.com | [LinkedIn](#) | [GitHub](#)

SUMMARY

Artificial Intelligence & Data Science graduate with hands-on experience in data analytics and web application development. Skilled in Python, SQL, Excel, Power BI, JavaScript, and data analysis, with experience developing data-driven and AI-powered applications. Familiar with machine learning workflows, REST API integration, database querying, data visualization, and responsive web development. Strong analytical and problem-solving foundation with experience working on individual and team-based technical projects.

EDUCATION

Bachelor of Engineering (AI & Data Science)	2022 – 2026	Ajeenkya D. Y. Patil School of Engineering, Pune
HSC (Computer Science)	2020 – 2022	Abhyankar Kulkarni Jr. College, Ratnagiri

TECHNICAL SKILLS

- Programming:** Python, JavaScript
- Data Analytics & BI:** Microsoft Excel, Power BI, Data Cleaning, EDA, Data Visualization
- Libraries:** Pandas, NumPy, Matplotlib, Seaborn
- Web Development:** HTML5, CSS3, React, Tailwind CSS, REST APIs, Responsive Web Design
- Databases:** SQL, Relational Database Fundamentals
- Cloud:** AWS (Cloud Foundations)

EXPERIENCE

- Data Analytics Intern | iGurus Consultancy Services LLP | Duration: 3 Months**
 - Cleaned and preprocessed structured datasets to improve data quality for analysis.
 - Performed exploratory data analysis using Python, Pandas, and NumPy to identify trends and patterns.
 - Created analytical reports and visualizations to communicate findings and support data-driven decision-making.
- AI/ML Virtual Intern | AICTE Internship Program | Duration: 10 Weeks**
 - Applied machine learning workflows including data preprocessing, model training, and evaluation using Python and Scikit-learn.
 - Worked with supervised learning techniques and structured datasets through practical assignments.
 - Developed practical understanding of machine learning workflows, model evaluation, and data-driven problem solving.

PROJECTS

- OmniAI – Multi-Agent Conversational Assistant for Task Automation | Team Project**

Technologies: HTML, Tailwind CSS, JavaScript, Jinja2, REST APIs

 - Contributed to the frontend of an AI-powered assistant supporting report generation, email generation and sending, natural-language SQL querying, and data visualization.
 - Developed responsive interfaces and integrated frontend components with backend APIs for AI-powered workflows.
 - Worked on dynamic UI interactions, API communication, dashboard functionality, and frontend enhancements.
- CivicPulse – Municipal Operations Dashboard**

Technologies: React, JavaScript, Tailwind CSS

 - Developed a responsive municipal operations dashboard using React, JavaScript, and Tailwind CSS.
 - Built reusable React components for displaying operational data and action-oriented information.
 - Designed structured dashboard interfaces focused on usability and clear presentation of municipal information.
- Placement Guidance Telegram Bot**

Technologies: SQL, Python, Telegram

 - Developed a Telegram-based placement guidance bot that evaluates student profiles using factors such as CGPA, internships, and extracurricular activities.
 - Used a historical college student dataset sourced from Kaggle to analyze factors associated with student placements.
 - Provides an estimated likelihood of placement based on the student's profile and identifies areas that may need improvement.

ACHIEVEMENTS

- Secured 1st Rank** in Project Based Learning (PBL) Exhibition for "AdmitAssist: College Predictor Bot".
- Secured 2nd Rank** in IoT Exhibition for "Weather Monitoring System".
- Presented and published the research paper "OmniAI: A Multi-Agent Conversational Assistant for Task Automation" at the **2nd International Conference on Recent Advances in Technology & Management (ICRATM-2026)**.

CERTIFICATIONS

- AWS Academy Cloud Foundations
- Web Development Training – Internshala
- GenAI Powered Data Analytics Job Simulation – Tata (Forage)
- Data Analytics Job Simulation – Deloitte (Forage)
- Machine Learning Course – Simplilearn
